

**ARE YOU SOLAR READY?  
FILL IN THE CHECKLIST**

---

Do you see your company still active at this location for the next 10 years at least?

Do you think a green image would bring a positive impact on your clients?

Are you sensitive to “Corporate Social Responsibilities” growing concerns?

Does your electricity bill represent a serious concern you would like to better address?

Do you forecast an increase of your energy bill in the coming years (inflation or consumption?)

Do you pay your electricity more than 0.10€/kWh?

Do you consume electricity mostly during daylight and with a quite flat profile all year long?

Is your total annual electricity consumption around or above 300 MWh?

Do you have at least 3000m<sup>2</sup> (= 200 kWp) free space and shadow on the ground or a roof (with 13kg/m<sup>2</sup> overload capacity)?

Do you have environmental constraints to deal with (CO<sub>2</sub> emission targets, energetic performance building certification (BREEAM, LEED, HQE, ISO, ...)?

Get in touch with Enerdeal today.  
We'll be happy to discuss opportunities for your location.
